Provides gentle pain relief for

- Arthritis
- Osteoarthritis
- Swollen muscles
- Sprains and bruising
- Stiff joints
- Painful areas
- Sports injuries

A new gel formulation to help soothe muscle and joint problems. The non-greasy, easily absorbed gel has no added fragrance or colour.

Ingredients:

Glucosamine - A well known supplement for helping the smooth working of joints where cartilage has deteriorated or damage has occurred. Studies have shown that glucosamine can be as effective as anti-inflammatory drugs typically recommended for easing the pain from arthritis, stiffness and swelling and other joint injuries, but with none of the side effects associated with drugs.

Menthol - Cooling and soothing and helps to reduce swelling and pain

Arnica - A traditional first aid remedy used over many years for bumps, bruises and to help reduce swelling and trauma.

Hippocastanum - natural pain relief for rheumatism and neuralgia

Helps to naturally relieve the pain & discomfort of stiff or swollen muscles and joints. It can be used for muscular inflammation as well as temporary relief from the symptoms of arthritis and osteoarthritis
